Como montar os enfeites gigantes

1

Imprima em tamanho real

Na impressora, escolha A4 e “tamanho real” ou “100%”. Não use “ajustar à página”. Papel sulfite comum funciona; 180 g deixa o enfeite mais firme.

2

Siga o mapa

Antes das folhas de cada enfeite tem um mapa. Cada folha tem um código, como A1, A2, B1: a letra é a linha e o número é a coluna.

3

Recorte a margem

Corte cada folha na linha tracejada cinza. As peças se encaixam lado a lado, sem sobra.

4

Una por trás

Junte as folhas na ordem do mapa e passe fita adesiva pelo verso. Dica: cole tudo sobre papel cartão ou papelão para ficar rígido.

5

Recorte o contorno

Com o enfeite montado, recorte pela linha cinza em volta do desenho. A borda branca dá o acabamento.

6

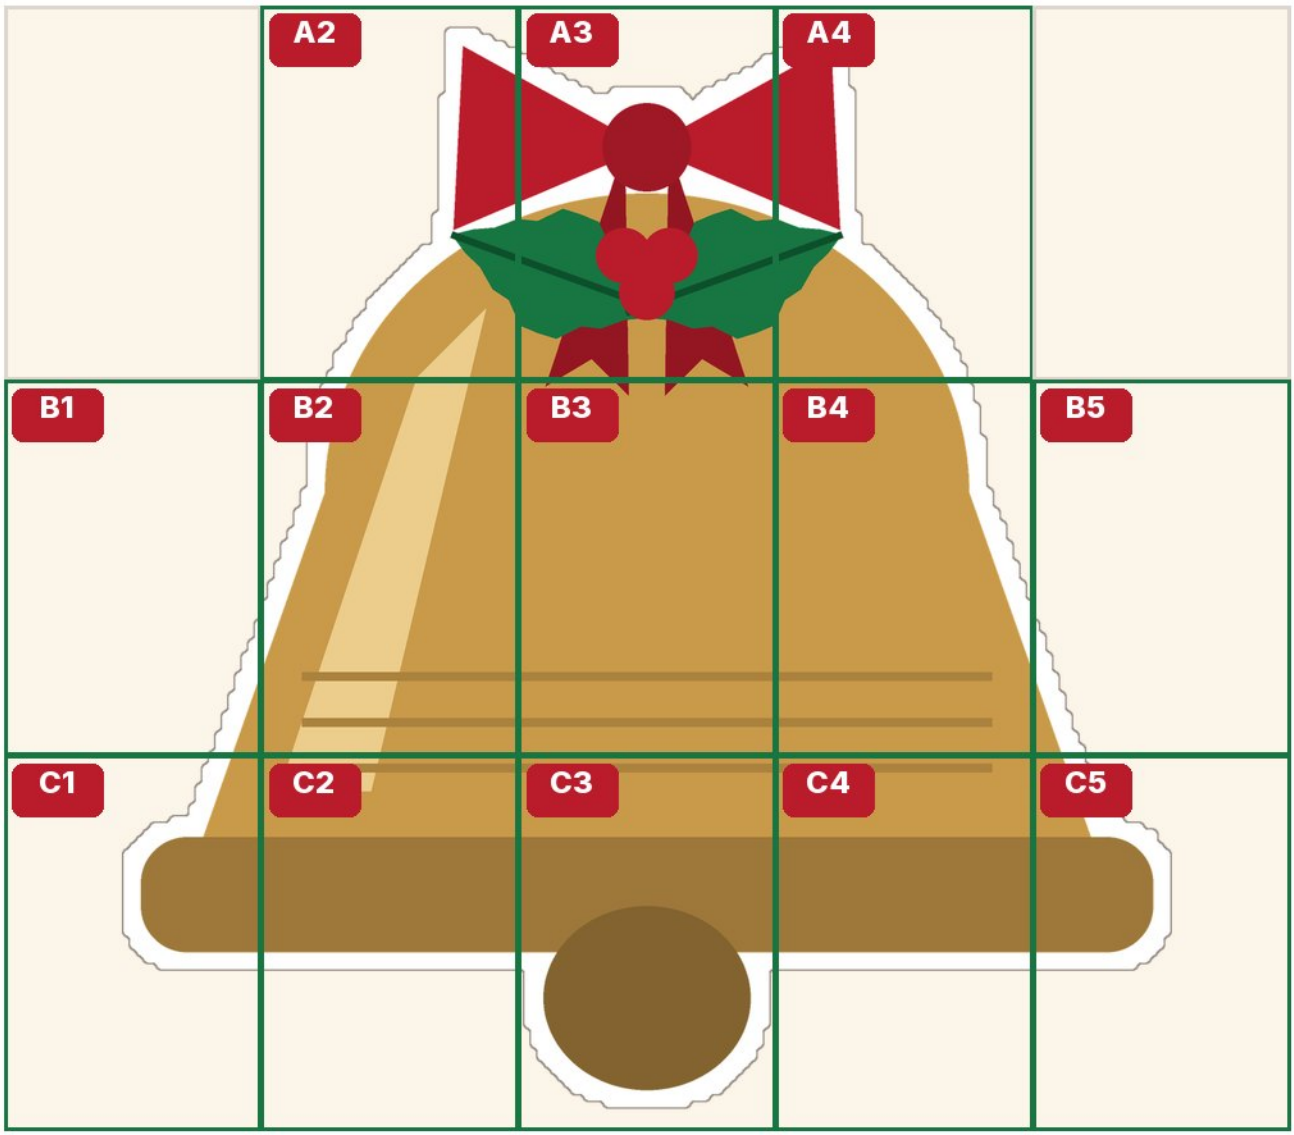

Pendure

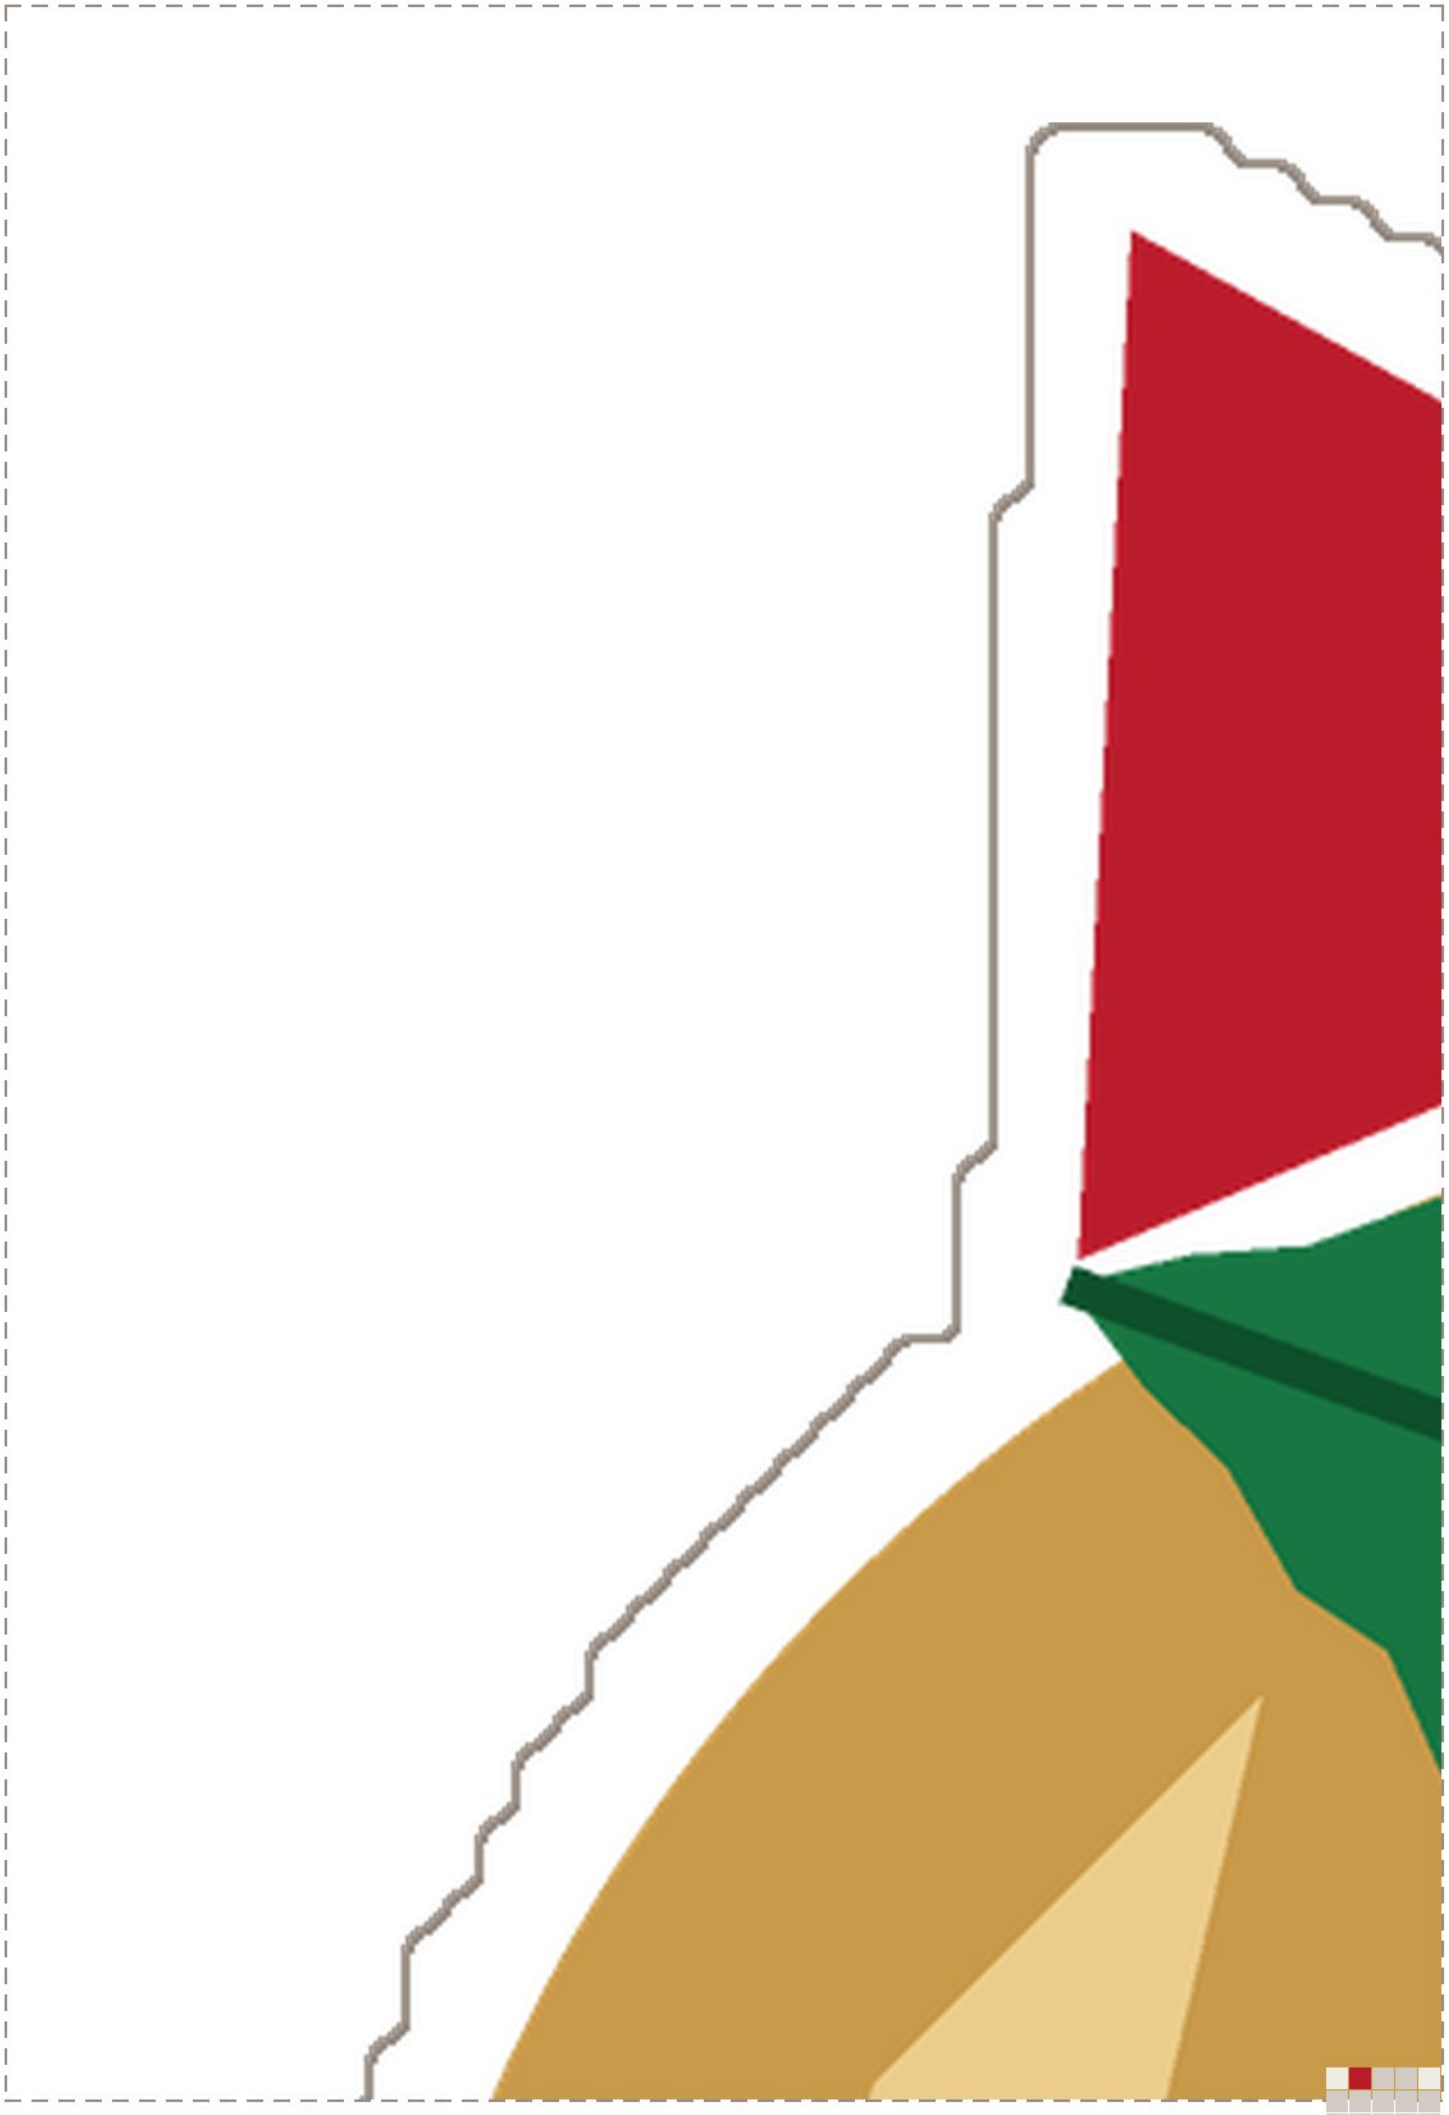

Faça um furo no alto e passe barbante ou fio de nylon. Fica lindo com cortina metalizada, no teto, na parede ou na vitrine.

Materiais de montagem (fita, barbante, cortina metalizada) não inclusos.
